

# CELEBRATING A LONG HISTORY OF FORWARD THINKING

At Brewin Dolphin there is an extra reason to be excited about 2012. Not only is it the year of the London Olympics and the Queen's Diamond Jubilee, it is also the 250th anniversary of the company's founding in 1762 – a milestone that the company is proud to have reached. Words by David Pegler

**R**EACHING our 250th anniversary gives us an opportunity to reflect on what we have achieved as a business. Over the years we have proved ourselves to be a stable, trustworthy adviser whatever the financial climate – with a history spanning the Napoleonic Wars, two World Wars, the Great Depression and other periods of severe stockmarket turmoil, we have a wealth of experience of dealing with the ups and downs in investment markets.

Many of our clients and their families have trusted us to look after their wealth for generation after generation – a testament to the high quality of personal service we continue to provide.

And we have grown, from our origins as a founding firm of the London Stock Exchange, to become one of the largest independent private client investment managers in the UK. We now look after the investments of around 130,000 clients and manage £24bn on their behalf.

Our growth has been driven over time both by attracting new clients and drawing together the skills and expertise of wealth management firms from across the country. We have joined forces with a number of leading financial names, building up a nationwide network of 40 offices that gives us a strong regional presence. Overall, while we are proud of our diverse heritage, today we are a single firm with consistently high standards of professionalism and integrity across the business.

The Brighton Office of Brewin Dolphin became part of the Group in 2009. The

team works hard to cut through the mystique which surrounds some aspects of the world of finance and are dedicated to creating innovative and tailored investment solutions for our clients.

We believe there is much to celebrate in our 250th anniversary year – our longevity and rich heritage, the dedication and quality of our people and the contribution they all make to provide a first class service to our clients. We hope our clients and intermediary partners will join us at one of the many celebratory events we have planned in 2012 to help us make it a year to remember.

The value of your investment may fall and you may get back less than you invested.
